PERGAMON

FUTURES

FUTURES® is a multidisciplinary journal covering the methods and practice of long-term forecasting for decision and policy making on the future of mankind, culture and society, economics, technology, politics and environment. FUTURES® provides opportunities for the publication of material which may represent divergent ideas and opinions. The editors do not necessarily agree with the views expressed in the pages of FUTURES®. Those wishing to submit articles (which are refereed before acceptance for publication), essays or reports should send three copies to the Editor.
